LOADERS WITH DUMP TRAILER

Your ally for transporting and collecting!

MANUFACTURED
IN CANADA

METAVIC

Creating Enjoyment in the Forest.

SINCE 1982
40 YEARS
METAVIC

PROUDLY PRODUCED IN CANADA

TESTED IN OUR FORESTS BY THE PROS!

For more than 40 years, our experts have designed and tested loaders in our forests under real-world conditions, thereby ensuring optimal performance.

Our loader is perfect for tree pruners, parks, cities and municipalities for collecting various materials.

A - STABLE

Every trailer is designed to accommodate a loader, guaranteeing exceptional balance and stability during load and transit.

D - POWERFUL AND RELIABLE

Our gasoline-powered, Honda hydraulic unit withstands Canada's harsh winters and allows you to operate the loader independently from your vehicle. And our LED lights last longer than ever!

B - REVOLUTIONARY GRAPPLE

With its exclusive curve, our grapple makes it easy to pick up logs without crushing them, increasing lift capacity while preserving wood quality.

E - EXCEPTIONAL QUALITY

At Metavac, the galvanization of our trailers ensures durable equipment. Furthermore, we pay attention to every detail: the wiring and connectors are sealed, and each trailer comes with a roll-up tarp.

C - STEADY TRAILER

The butterfly stabilizer legs attached to the loader allow the trailer to stay put during loading or unloading, keeping you anchored to the ground!

F - SMOOTH OPERATION

Metavac offers unparalleled efficiency in handling loads, and thanks to our hydraulic control, every task is smooth and precise.

SPECIFICATIONS

Loader	1150M13	1150M14	1150M16
Boom lenght	13 ft	14 ft	16 ft
Loader height	66 in	66 in	66 in
